Location, Location, Location! This solar-powered home near the top of Golden's premier subdivision features hardwood floors on the entire main floor, a home theater with stadium seating and wet bar in the basement. Best of all, it has a solar photovoltaic system which satisfies most of the home electrical needs! It is leased, but the lease fee is only \$71 per month – far less than the cost of purchasing from Xcel the electricity it creates. The views from all three levels of this home are superior, because the homes behind this house are lower by at least 75 feet. The homes across the street back to Mt. Galbraith Open Space Park, and there is a trailhead for that park within this subdivision, as is a city-managed park. Buyer gets free use of moving truck and free moving boxes.
